## COVID-19 Vaccine Access Sample Report

# Belgium

### Can expatriates get a COVID-19 vaccine locally?

**Yes.**  
Legal residents in Belgium can receive the vaccine.

### See how many people have been vaccinated in Belgium.

<https://covid-vaccinatie.be/en>

### Get more vaccine details here.

<https://www.info-coronavirus.be/fr/vaccination/>

### How to access the vaccine

All legal residents are sent information at home by mail, text message or email with details specific to vaccination location and appointment date. The appointment needs to be confirmed, refused or rescheduled. With valid reasons, at-home vaccination can also be arranged.

**It is free of charge.**

### When do the vaccines rollout?

- January**  
Residents and staff at nursing homes and medical staff in hospitals
- February**  
First-tier medical staff (physicians, pharmacists) and remaining hospital staff
- March**  
Patients 65 and older and high-risk patients with comorbidities
- April**  
Essential workers
- June**  
General population over 18

### Who gets top priority?

- A** Residents and employees of nursing homes, frontline medical staff exposed to COVID-19 patients, other frontline medical staff.
- B** Vulnerable population without acute medical care, but at high risk. First population 65 and older, followed by high-risk population between 45 and 65, followed by essential workers.
- C** Remaining population.

### Where is a COVID-19 vaccine site?

People are assigned a vaccination site or can be vaccinated at home if they cannot go.

### What are the authorized vaccines?

**Pfizer BioNTech**  
**Moderna**  
**AstraZeneca**  
**Janssen**

# COVID-19 Vaccine Access Sample Report

# India
