Online and app access to address a range of skin concerns without delay

Quality care:

A licensed dermatologist reviews images, makes a diagnosis and communicates a personalized plan directly via the app

Convenience:

Diagnosis and treatment plan arrives within 2 business days – with no need to leave home

How a Dermatology Virtual Visit works

- 1 Create an account**
Download the Teladoc app or call 1-800-835-2362. Once an account is created, fill out the medical history survey like you would in a doctor's office.
- 2 Upload**
Submit at least 3 images of your skin concern for a dermatologist to analyze.
- 3 Review**
After 2 business days, a licensed dermatologist will share a diagnosis, treatment plan and prescription if necessary.
- 4 Follow-up**
The same dermatologist will connect with you within the following 7 days if you have additional needs.
